EDUCATION

University of Mogi das Cruzes (UMC) <i>Associate Degree in Systems Analysis and Development</i>	Mogi das Cruzes, SP <i>Feb 2026 – Dec 2027</i>
SENAI – Mogi das Cruzes <i>Short Course: Basic Python</i>	Mogi das Cruzes, SP <i>Sep 2023 – Nov 2023</i>

PROJECTS

Uniform Management System <i>Java, Spring Boot, Spring Data JPA, PostgreSQL, REST API</i>	<i>2026 – Present</i>
--	-----------------------

- Developed a web system that centralizes the operational workflow of a clothing manufacturing business, including orders, production, inventory and delivery, replacing spreadsheets and manual processes.
- Modeled business entities and rules such as Clients, Uniforms, Orders, Production and Delivery, ensuring end-to-end traceability.
- Implemented order status control and production stages such as cutting, sewing, printing, finishing and packaging, with assignment by seamstress.
- Structured the application in layers using Controller, Service and Repository, applying object-oriented programming and REST best practices.
- Repository: github.com/devlil0/uniform-system

Whey Promotion Bot <i>Java, Spring Boot, Spring WebFlux, Spring Scheduling, Docker, Maven</i>	<i>2026</i>
--	-------------

- Developed a backend application that monitors whey protein prices from Brazilian supplement stores and calculates the best cost-benefit ratio based on cost per gram of protein.
- Integrated external APIs and public product sources using Spring WebFlux (WebClient), performing reactive and non-blocking HTTP requests.
- Automated scheduled collections with `@Scheduled`, running search, ranking and promotion detection routines at defined times.
- Implemented business rules to rank products, identify relevant price drops and structure automatic alerts based on cost-benefit analysis.
- Repository: github.com/devlil0/whey-promotion-bot

EXPERIENCE

Freelance <i>Computer Technician</i>	Suzano, SP <i>Since 2022</i>
--	---------------------------------

- Perform preventive and corrective maintenance on computers and smartphones, diagnosing and solving hardware and software issues.
- Provide direct customer support, presenting technical solutions in a clear and accessible way.

IU Uniformes <i>Operations Assistant</i>	Mogi das Cruzes, SP <i>Jul 2025 – Mar 2026</i>
--	---

- Organized production processes and met deadlines in an industrial environment, operating uniform production machines.
- Closely followed all production stages, an experience that inspired the Uniform Management System listed in Projects.

Burger King – Shopping Mogi <i>Multifunctional Attendant</i>	Mogi das Cruzes, SP <i>Jan 2025 – Jun 2025</i>
--	---

- Served customers in a high-traffic environment while maintaining quality under pressure and meeting time-based goals.
- Worked as part of a team, coordinating simultaneous tasks and quickly adapting to changes in demand.

TECHNICAL SKILLS

Languages: Java, Python, SQL

Frameworks: Spring Boot, Spring Data JPA, Spring WebFlux

Tools: Git, GitHub, Docker, Maven, IntelliJ IDEA, Postman

Databases: PostgreSQL

Concepts: REST API, Object-Oriented Programming, Layered Architecture (MVC), Dependency Injection, Task Scheduling

Languages: Portuguese (Native), English (Intermediate)
